About Us

About wienwork

For more than 40 years, we have been creating and mediating jobs and training posts for disadvantaged people in the labour market. We are represented at numerous sites throughout Vienna with our services, projects and business sectors.

We enable people with disabilities, chronic illnesses or long-term unemployed people to participate in economic and social life and to secure their personal livelihoods.

On average, we employ about 700 people, including about 170 trainees. About 60% of our employees and all trainees have at least one or multiple disabilities, or they have been unemployed for a long time before they found work at wienwork.

Our employees are paid according to the applicable collective agreements.

Every year we advise, coach, train and place more than 3,000 clients.

We embody (and cherish) inclusion and sensitise society to the concerns of fellow citizens with disabilities through our work.

In a lively exchange with organisations at home and abroad, we foster „learning from each other“ and value looking beyond our own horizons.

We attach great importance to sustainability and environmental protection: For many years, we have carried the seal of approval for social enterprises. We are an award-winning Ökoprofit company and have the Austrian Eco-label in some departments.

We are a state-awarded family-friendly employer.

We are part of Integrative Betriebe Österreich – eight strong brands under one roof.

wienwork offers people who cannot find a job in private-sector companies due to their disability a (re-)entry into working life. This makes it possible for them to have what every person wants: a self-determined life!

Our services – awarded with seal of quality

Digital Media

We produce printed matter such as flyers, folders, portfolios, brochures, posters, letterheads, business cards, catalogues, counterfeit-proof plastic cheque cards and much more on state-of-the-art printing machines. Competent professional advice is just as much a matter of course with us as brilliant print quality at fair prices.

Gastronomy

We cater for and spoil well over 1,000 guests every day in our restaurants, canteens and cafés at several locations in Vienna. In addition, we offer our customers catering as well as a bread roll and cake delivery service. We place very high demands on product quality and on the freshness of processed goods. Excellent and healthy food can only be cooked with high-quality ingredients.

Landscape gardening

Whether it's mowing the lawn, scarifying or trimming the hedges: We make sure that your green spaces, your patio or your garden look their best. Our specialist staff are highly trained and are sure to have the right solution to your problem.

Renovation & maintenance

From bathroom remodelling, office repainting, floor laying or sanding, to replacing light fittings – and much more besides: we'll take care of it all for you. Reliably, on schedule and for a fair price. With our „mobile fitter“, we are able to carry out repairs and various welding work directly on site at your premises.

Cleaning facilities & Car wash

We undertake regular cleaning of offices, buildings and building sections parts (staircases) as well as comprehensive basic cleaning and window cleaning. As a special service, we also clean photovoltaic systems.

Textile cleaning, Ironing service & Tailor's workshop

In our large-scale laundry facility, around 1,500 kg of laundry is cleaned hygienically and kept in tip-top condition every day – in an environmentally-friendly manner, with RAL seal of approval and even disinfected upon request. Including pick-up and delivery service. Our creative tailor's workshop specialises in small series and works closely with various designers. Also on offer: textile promotional items – made entirely according to our customers' specifications.

Carpentry & Upholstering

Our carpentry service produces custom-built furniture for commercial purposes and private customers, contract furnishings and mass-produced items for residential homes, offices and hotels. We produce around 250 bespoke kitchens per year. For our customers, we offer the „furniture upholstery“ service as required.

„Michl's bringt's“ Delivery Service

The latest trend: our delivery service with e-bikes. We bring your shopping to your doorstep – at a good price and in a socially and environmentally friendly way! In collaboration with SPAR Gourmet and many other retail businesses in Vienna..

Excellent jobs. First-class services.
We are part of Integrative Betriebe Österreich.

Offers for people with disadvantages

Our goal: To sustainably increase the professional, personal and social competence of all employees and trainees

To provide stability for our employees and trainees To support and advice through our company social work

To promote barrier-free communication: our employees and trainees who are hard of hearing are supported by communication assistants in Austrian sign language.

Specialised pedagogical support for our trainees - also in Austrian sign language. To review and consolidate the material taught at vocational school.

Full-fledged jobs in our various business areas of the integrative company.

Transitory jobs in „Michl's“ socio-economic business.

Vocational qualification within the framework of the „QualiTRAIN“ and „On the Job“ projects (for adults and young people respectively).

Traineeships within the framework of inclusive vocational training (extended traineeship and partial qualification).

We are proud of our committed employees and trainees, who contribute and have contributed to many of wienwork's successes and awards with their achievements, their ideas and their special commitment.

● Jobmanagement – your way to a job

More than 90 employees in the Jobmanagement team support more than 3,000 people with disadvantages every year on their way into working life or on their way to (re)entering it.

Our focus

Counselling, qualification and placement of young people and adults with disabilities and other disadvantages.

Our range of services

We usually start at transitions, which can be very different:
from school to training, from a qualification, a training place or a training place at wienwork directly into a job.
Or from unemployment into a job or into setting up a business.

We also attempt to preserve threatened jobs and advise companies on possible solutions to existing workplace conflicts.

We find a way

Together with our clients, we try to find the best way, which can sometimes be an intermediate step into another project or offer.

We have an excellent network

Cooperations with other integration services and good collaboration with businesses are essential for our team's success.

We are integration professionals

Our team comprises more than 90 professionals with a great deal of experience and specific training. We work together with our clients on an equal footing in order to create a win-win situation for everyone.
